

ONE PLACE, ALL THE SOLUTIONS.

New Product Design, Prototyping & Small Series

SERVICES
Design Concept
Product Development
CAD 3D Engineering
3D Print draft
Functional Prototyping
Prototype Moulds
Small Series
Surface Finishing & Assembly

TECHNOLOGIES
HSM/SLA/SLS/FDM
Silicon Moulds
PUR Resins

GRANDESIGN

Mould Making & Validation

SERVICES
Mould Engineering & Manufacturing
Small and Technical Moulds
Medium and Large Moulds
Inhouse moulds testing and validation

TECHNOLOGIES
Moldflow®, Filling, Cooling, Warpage

 moliporex

Checking Fixtures & High Speed Milling

SERVICES
Engineering
Metrology
Metal Parts
Checking Fixtures
Cubings
Assembly

TECHNOLOGIES
High Speed Machining

Injection Moulding & Assembly

SERVICES
Injection Moulding from 35 TON to 2300 TON
Clean Room ISO 7
Assembly
Just-In-Time

TECHNOLOGIES
1K/2K/3K Injection Moulding
Metal Insert moulding
Reel-to-reel injection moulding
In-mould assembly
“Variotherm” injection moulding
Back-injection
Gas assisted injection

Software & Engineering Services

SERVICES
Engineering
CAD-CAM-CAE solutions
PLM solutions
Hardware platforms
Structural Analysis Moldflow®

SOFTWARES
Siemens
Dassault Systems
MSC Softwares
Autodesk
Materialise
